DESCRIPTION

Pear Puree Aseptic 12°Brix is a light-yellow to straw coloured puree produced from mature pears. The product is safe to use as an ingredient in beverages and other foodstuffs. Product is packed aseptically into drums.

PROCESS

Pears are washed and sorted before being crushed (milled). The puree is refined and sterilized to produce an aseptic puree. Ascorbic acid is added as a processing aid. The puree is manufactured under sanitary conditions appropriate for food products, in compliance with applicable laws and regulations including Good Manufacturing Practises (GMP).

ORGANOLEPTIC

A light-yellow to straw puree with a smooth consistency. Product has a typical pear appearance, aroma and taste with no off-taste or off-odour.

PACKAGING

Product is packed into open top drums with lids. Safe guarded to prevent tampering. Primary packaging comply with relevant EU regulations.

SHELF LIFE

Shelf life is 18 months at ambient storage ($\leq 25^{\circ}\text{C}$). Drums need to be stored in a dry, clean and sanitary area protected from the elements.
